

2010 Partnership Opportunities

How can You Partner with LIFE International?

You can partner with LIFE through prayer and financial support for specific projects or for the ministry as a whole. Lives are being saved and transformed as individuals and organizations team up with LIFE to multiply healthy, life-giving ministries wherever abortion exists around the world. Our 2010 budget is \$2,000,000. Specific partnership opportunities are listed below. Every prayer offered and every gift sown into LIFE helps reach people worldwide with the Gospel of Jesus Christ and the truth about abortion. Will you join with us as we help nationals to establish life-giving ministries around the world?

Please contact us if you have questions, would like additional information, or would like to join in LIFE's work around the world.

Regional Office—Eastern Europe

Fund Goal: \$50,000

FACT: More than 37 groups in Eastern Europe have sought LIFE's help in starting or growing life-giving ministries.

GOALS: Cultivate healthy life-giving ministries in the region. Work with associates to develop the first evangelistic pregnancy center in Moscow. Serve as networking hub for pro-life ministry in Eastern Europe. Distribute tools and resources that mobilize ministries within the region.

This regional office oversees and expands LIFE's efforts in the region: training, mentoring, networking, and equipping Eastern Europeans to reach out to abortion-vulnerable women with the truth about abortion, the gospel of Christ, and material assistance. As citizens of Eastern Europe, the regional office staff can effectively organize training seminars, visit centers, respond to requests for help, and translate and print manuals locally.

Life-Giving Impact Fund

Fund Goal: \$50,000

FACT: More than 200 groups from 75 nations have asked LIFE for help. To date, we've been able to assist 19 ministries in 16 countries.

GOAL: Through seed/project grants, help more teams start or further develop life-giving initiatives.

Through these grants, LIFE will empower nationals for components of life-giving ministry, e.g. pregnancy counseling, abstinence education programs, and post-abortion ministries. When possible, these grants will be matching, requiring teams to raise local support. Gifts to the Life-Giving Impact Fund provide for materials and equipment, vision/training events, projects, microenterprises, etc.

Life-Giving Travel Fund

Fund Goal: \$75,000

FACT: Our associates are often in countries where few evangelistic ministries exist to reach the abortion-vulnerable

GOALS: Speak to indigenous pastors and leaders to cultivate vision for life-giving work. Train nationals for life-giving ministry. Mentor existing ministry associates in boardsmanship, development, strategic planning, income-generating activities, and ministry program components. Inspire Americans to sow into overseas life-giving work.

LIFE visits our associates yearly to provide training, counsel, and encouragement. LIFE also travels domestically to increase national awareness of the global struggle for life and to recruit more trainers, volunteers, and contributors for the global mission field created by abortion.

2010 Partnership Opportunities

Increase Prayer for Life and Prepare for Growth

Remaining Remodeling Project: \$20,000

CONVICTION: Prayer is our first and best weapon in fighting the spiritual darkness which lures people into abortion.

GOALS: Build and sustain 24/7 prayer for life-giving ministries. Remodel parts of our building to facilitate prayer and office space as the ministry grows.

Approximately 20,000 abortions occurred in what is now the first floor of LIFE's headquarters. In 2007, those rooms became the International Prayer Center for Life. The building project is supplying a secure, keyless entry to the Prayer Center, allowing for evening and nightly prayer for the unborn, their parents, and those ministering to them. The project fund will also provide for carpeting and paint for new office spaces created during the remodeling.

Resource Packs for New Teams

Project: \$5,000

FACT: The world suffers from at least 42 million abortions a year – 97% of them are overseas.

GOAL: Equip teams to start life-giving ministries.

God has poured His passion for protecting life into outstanding leaders across the world. Many of them are simply unsure how to get started. As LIFE works toward establishing LIFE International University (an e-learning initiative that will help us train dozens in the time it takes to train one), we aim to help waiting teams get started now with resources (books, DVDs, Evangecubes, etc.) to educate them in leadership development, fundraising, the sanctity of human life, and life-giving ministry.

Information Technology Infrastructure

Project: \$30,700

FACT: LIFE is committed to reaching every abortion-vulnerable person with the Gospel and truth about abortion.

GOAL: To update and expand LIFE's IT infrastructure to support the advancement of the ministry.

Our desire is to see the vision of LIFE multiplied. To accomplish our ministry aims, LIFE needs to purchase additional PC workstations, upgrade outdated equipment, pay for ongoing IT support, expand our server back up capacity, and grow the capacity of our website.
