

EVERY YEAR,
42 MILLION CHILDREN LOSE
THEIR LIVES TO ABORTION
AROUND THE WORLD.

LIFE International enters into a covenant relationship with life-giving ministries worldwide, walking alongside them so that they also begin multiplying. Our global impact can only be multiplied by equipping leaders who can train others.

The International Training Specialist program establishes relationships with volunteers, supports them in building cross-cultural capacity, and facilitates relationships with international ministries.

“What I love most is that all LIFE partner ministries focus on unashamedly sharing the Gospel of Jesus Christ. A benefit of traveling as part of a LIFE team is seeing firsthand that the Word of God is as true for those serving in the far corners of the globe as it is for those of us in ministry in the United States.

Traveling with LIFE has also allowed me to enter into a special relationship with our international sisters and brothers serving in pregnancy resource ministry. Getting to know them personally, seeing their centers, and experiencing their cultures allowed me to better encourage them and lift them up in prayer. It was an awesome opportunity to be stretched spiritually and to experience a world that was a bit outside of my comfort zone.”

"My life will be forever changed by the friendships that I have made with both the staff at LIFE International and with my dear Bolivian friends. My heart has longed for mission work for years and much of that is being fulfilled in my work with Centro de Vida."

HOW DO I START?

Pray! Ask God how you can live out His heart for the nations.

The Process

1. Start by filling out the inquiry application. Obtain the application by emailing Matthew@lifeinternational.com. Or, download the application online at lifeinternational.com by clicking on the "Get Involved" tab, then "Partner through Volunteering."
2. You will be contacted by a LIFE International representative who will walk you through a "candidate orientation" based on your experience, expertise, and interests. This could include specific reading assignments and/or personal assessments.
3. LIFE International will invite you to attend cross-cultural (CQ) training at LIFE International's headquarters.
4. You will build a core group that will regularly hold you in prayer.
5. We will prepare you for an "exploratory" trip. This first travel experience will give you an opportunity to observe first-hand LIFE International's philosophy and methodology of equipping others internationally.

"The hope for Romania, but not only Romania—the hope for the world is Jesus Christ. God changed the face of Eastern Europe because you bent your knees before the Lord listening to Him, and you cried for the lost lives and joined Him in His prolife ministry."
