

Partnership Opportunities

How can You Partner with LIFE International?

You can partner with LIFE through prayer and financial support for specific projects or for the ministry as a whole. Lives are being saved and transformed as individuals and organizations team up with LIFE to multiply healthy, life-giving ministries wherever abortion exists around the world. Specific partnership opportunities are listed below. Every prayer offered and every gift sown into LIFE helps reach people worldwide with the Gospel of Jesus Christ and the truth about abortion. Will you join with us as we help nationals to establish life-giving ministries around the world?

Please contact us if you have questions, would like additional information, or would like to partner with us on one of these projects.

Multiplying Life-giving Ministry—Eastern Europe

FACT: More than 37 groups in Eastern Europe have sought LIFE's help in starting or growing life-giving ministries.

GOALS: Cultivate healthy life-giving ministries in the region. Serve as networking hub for pro-life ministry in Eastern Europe. Distribute tools and resources that mobilize ministries within the region.

Our Eastern Europe regional office oversees and expands LIFE's efforts in the region: training, mentoring, networking, and equipping Eastern Europeans to reach out to abortion-vulnerable women with the truth about abortion, the gospel of Christ, and material assistance. As citizens of Eastern Europe, the regional office staff can effectively organize training seminars, visit centers, respond to requests for help, and translate and print manuals locally.

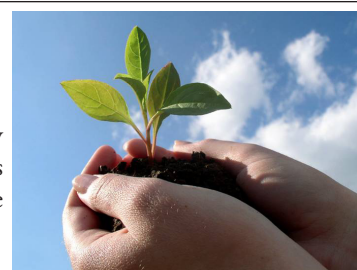

Life-Giving Impact Fund

FACT: More than 200 groups from 75 nations have asked LIFE for help. To date, we've been able to partner with teams in 21 nations to equip and multiply life-giving work.

GOAL: Through seed/project grants, help more teams start or further develop life-giving initiatives.

Through these grants, LIFE will empower nationals for components of life-giving ministry, e.g. pregnancy counseling, abstinence education programs, and post-abortion ministries. When possible, these grants will be matching, requiring teams to raise local support. Gifts to the Life-Giving Impact Fund provide for materials and equipment, vision/training events, projects, microenterprises, etc.

Life-Giving Travel Fund

FACT: Our associates are often in countries where few evangelistic ministries exist to reach the abortion-vulnerable

GOALS: Speak to indigenous pastors and leaders to cultivate vision for life-giving work. Train nationals for life-giving ministry. Mentor existing ministry associates in boardsmanship, development, strategic planning, income-generating activities, and ministry program components. Inspire Americans to sow into overseas life-giving work.

LIFE visits our associates yearly to provide training, counsel, and encouragement. LIFE also travels domestically to increase national awareness of the global struggle for life and to recruit more trainers, volunteers, and contributors for the global mission field created by abortion.

LIFE International } multiplying healthy, Christ-centered, life-giving ministries wherever abortion exists around the world

Partnership Opportunities

Increase Prayer for Life and Prepare for Growth

CONVICTION: Prayer is our first and best weapon in fighting the spiritual darkness which lures people into abortion.

GOALS: Build and sustain 24/7 prayer for life-giving ministries. Remodel parts of our building to facilitate prayer and office space as the ministry grows.

Approximately 20,000 abortions occurred in what is now the first floor of LIFE's headquarters. In 2007, those rooms became the International Prayer Center for Life. We are working to mobilize a coordinated network of people actively engaged in prayer to uphold and advance life-giving ministries worldwide.

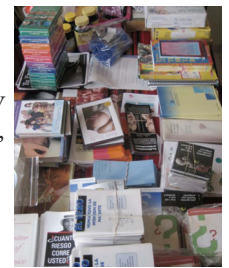

Resource Packs for New Teams

FACT: The world suffers from at least 42 million abortions a year – 97% of them are overseas.

GOAL: Equip teams to start life-giving ministries.

God has poured His passion for protecting life into outstanding leaders across the world. Many of them are simply unsure how to get started. We aim to help waiting teams get started now with resources (books, DVDs, Evangecubes, etc.) to educate them in leadership development, fundraising, the sanctity of human life, and life-giving ministry.

Information Technology Infrastructure

FACT: LIFE is committed to reaching every abortion-vulnerable person with the Gospel and truth about abortion.

GOAL: To update and expand LIFE's IT infrastructure to support the advancement of the ministry.

Our mission is to see healthy, Christ-centered, life-giving ministries multiplied wherever abortion exists around the world. To accomplish our ministry aims, LIFE needs to purchase additional PC workstations, upgrade outdated equipment, pay for ongoing IT support, expand our server back up capacity, and grow the capacity of our website.
